Weekend Report from R8

· ***FOIA on Poop Memo*** – The FOIA response regarding the poop memo resulted in an 8/21/14 Greenwire article that was picked up by Media ite, Colorado Peak Politics and the Washington Free Beacon. A staff person from the House Committee on Science, Space and Technology wants a briefing on the Greenwire article the week of September 2nd. We will work with OCIR to get more details regarding the request. The story died down quickly in the media. Great support from OEA press officers and OGC.
